

Candles

c. Meryl Ann Butler 2022 www.OceanViewArts.com

1. Print on white or colored card stock. (Either the side with the gray gradation or the unprinted side can be used as the "right" side.)
2. Flame and/or halo and or candle may be colored in with colored pencils, markers etc. Always add color before cutting out the shape.
3. Cut out along outside solid line. Include or exclude halo around the flame, as desired. To shorten: trim the bottom edge. To lengthen: Add to the bottom edge and use the back side of the paper as the right side of your candle.
4. Roll candle portion. Roll more tightly for a skinnier candle or loosely for a wider candle. Rolling around a pen or pencil helps.
5. Fold blank circle portion down to create a covered top of the candle.
6. Glue to secure.
